

North Coast Energy Forum  
[admin@ncef.net.au](mailto:admin@ncef.net.au)  
 0438 905 825

**What:** the opportunity to present a two minute overview of your local community renewable energy or energy efficiency project per the template below

**Who:** representatives from local community energy groups attending the North Coast Energy Forum ([purchase your tickets here](#))

**When:** at the North Coast Energy Forum, 9am – 5pm, 27 October 2014

**Where:** Cabarita Beach Bowling & Sports Club

**How:** **The four topics below are what we would like you to cover.** Please complete the sections below with information about your local community energy group, keeping in mind that it is important to keep the entire presentation to two minutes or less. Email your completed template to [admin@ncef.net.au](mailto:admin@ncef.net.au) for confirmation of your program spot. If you have any questions, email the above address or phone 0438 905 825.

<b>Who we are</b>
We are Australian Radio Towers
<b>Where we are</b>
We are locally based in Murwillumbah – Our project is going to be conducted in Tyalgum.
<b>What we're doing</b>
<p>We would like to take Tyalgum off the grid; we would like to create a zero net town.</p> <p>Currently about to embark on the feasibility assessment, we have consulted with the community in a limited capacity, however the initial reaction was overwhelmingly positive, and the community representatives were informed that their engagement and support through this process is crucial. We have had a brief consultation with council representatives at the last local think tank. We have been networking with specialists and professionals and researching renewable technology solutions.</p> <p>In addition to taking Tyalgum off the grid, we are concurrently developing a natural energy centre in Tyalgum's old Bartrim's garage. This centre will have a focus on education, engagement and development of renewable energy technologies.</p> <p>We are looking at a holistic sustainable approach with energy being the centre focus.</p>
<b>What we want from you</b>
<p>We are looking for support.</p> <p>We are looking currently to begin forging relationships with people who are passionate about the project and the area that might be able to offer advice, skills or time. Anyone with any previous experience, even on a much smaller scale at establishing a similar project that might have some insights.</p>
