

Tyalgum Energy Project

Who we are
Tyalgum Energy Project
What and how are we doing it?
We are working on a sustainability concept for the village of Tyalgum with an optimistic goal of taking the whole town off the grid.
Why are we doing it?
The community has expressed interest in this project and we feel like the direct community and the indirect community will benefit from a community run initiative such as ours.
What we want from you? What can we offer you?
<p>As of early next year we will be focused on executing our plan, laid out by Energy For the People and we will be looking for community members to take on some of the responsibilities and join a driving group. Those community members can come from the Tyalgum community or further afield.</p> <p>We would be happy to work with other groups in the area and assist wherever we are able.</p> <p>Contact Details: Kacey Clifford – Project Coordinator 0266 726 200 0423879235 offthegrid@australianradiotowers.com</p>
